Summary

"Build your own dreams, or someone else will hire you to build
theirs."
-Farrah Gray

I am a Computer Science Engineering student at the Vellore Institute
of Technology. My strongest skill is my creativity. I've always been
fascinated by computers and the technical mechanics behind the
monitor.

My studies have provided me with broad proficiency in the use
of software engineering methods, tools, software packages, and
techniques. Alongside this, I have developed sound communication
skills while delivering presentations to large audiences at university.

Having secured a first-class degree, I am now eager to secure roles
that demand the use of the skills gained during my studies. I love to
connect with new people and build new relationships, so feel free to
send me a message.

Experience

FundingX
Front End Web Development Intern
March 2021 - May 2021 (3 months)
India

Sunali's Classes
